

# LETTER TO THE DELEGATES OF COP24

FROM MATEUSZ CABAŁA, 8 YEARS OLD

Climate Alliance

## DEAR REPRESENTATIVES OF UNITED NATIONS ORGANIZATION

As early as in kindergarten we are taught what ecology is and we learn how important pro-environmental actions for our little community but most of all for our planet are.

Both, myself and my parents try to take care of our environment. We separate our waste, save energy and water and we choose healthy food.

Unfortunately, our actions will be futile if you- the leaders- do not give us an example. Our planet is collapsing too quickly. Many species are in danger of extinction; forests are being cut down only to be replaced by yet another shopping centre. Air pollution is alarmingly high.

**Please, save our world!**

**Do it for us and for future generations!**

*Mateusz Cabała, 8 years old*

### THE GREEN FOOTPRINTS CAMPAIGN

Since 2002, Climate Alliance's Green Footprints has been helping children across Europe learn about the influences of their daily actions on the climate and encouraging them to become role models for both their parents and climate politicians. During at least a one week period, children in participating classes collect so-called 'green footprints' for every sustainable trip completed via public transport, bike or foot as well as for other environmentally-friendly habits such as sustainable nutrition. These footprints are presented to the participants and politicians at the UNFCCC's annual Climate Conferences. [zoom-kidsforclimate.eu](http://zoom-kidsforclimate.eu)

### THE CLIMATE ALLIANCE

For more than 25 years, Climate Alliance member municipalities have been acting in partnership with indigenous rainforest peoples for the benefit of the global climate. With some 1,700 members spread across 27 European countries, Climate Alliance is the world's largest city network dedicated to climate action and the only one to set tangible targets: each member city, town and district has committed itself to reducing greenhouse gas emissions by 10 percent every 5 years. Recognising the impact our lifestyles can have on the world's most vulnerable people and places, Climate Alliance pairs local action with global responsibility.
