

# ZOOM-Kids on the move

Try to walk or take a bike, scooter, bus or train for your journey to school or kindergarten as often as possible. Each climate-friendly journey gives you a Green Footprint : one for your journey in the morning and one for the journey back home. You can collect Green Footprints at the weekend, too.

At the end of the activity week add'up all Green Footprints and write the amount into the green box.

A large, empty green box with a white interior, intended for recording the total number of Green Footprints.
